**Connect Tech Inc.**

PCIe/104 Bus Extender

Connect Tech's PCIe/104 Bus Extender can be used to allow one additional card height spacing between peripherals in a PCIe/104 or PCI/104-Express stack.

The PCIe/104 Bus Extender can be used to allow the additional space required for objects such as heatsinks, I/O connectors, cables or other components that can cause clearance issues in your PCI/104-Express stack.

Product Name: PCIe/104 Bus Extender
Part Number: ADG038

Front   Back

PCIe/104 Bus Extender in a Stack Configuration

FEATURES

✓ *Expand the height clearance between Single Board Computers (SBCs) and PCIe/104 or PCI/104-Express Peripherals*

✓ *PCIe/104 (PC/104-Express)*

✓ *PCIe/104 x16 Bus Connector*

✓ *-40ºC to 85ºC (-40ºF to 185ºF)*

Specifications	
Bus Connectors	PCIe/104 x 16
Dimensions	**Length:** 9.02 cm/3.55" **Height:** 1.4605 cm/0.575"
Temperature	-40℃ to 85℃ (-40℉ to 185℉)
Bus	PCIe/104 (PC/104-Express)
System Requirements	PCIe/104 or PC/104-Express Stack
Warranty and Support	Lifetime warranty and free technical support

RoHS
